In the realm of human existence, we often find ourselves limited by perceived boundaries and societal expectations. However, the concept of a "metahuman" challenges these limitations, inviting us to explore the vast, untapped potential within ourselves.

## What is a Metahuman?

The term "metahuman" is derived from the Greek prefix "meta," meaning "beyond," and "human." It refers to individuals who possess extraordinary abilities that transcend the ordinary capabilities of Homo sapiens. These abilities can manifest in a wide range of forms, from superhuman strength and speed to telepathy, telekinesis, and the power to manipulate matter.
